From the Principal’s Pen

Jaime Zapico

We are already halfway through the third nine weeks. Parents, please make sure you are checking your child’s grades on ECHO on a regular basis at http://echo.newtechnetwork.org. When you log on, you will be able to see your child’s courses with assignments, projects, homework assignments, and current grades for each course. Congratulations to all of our students who made the honor roll for the second nine week period. We had a great time celebrating their achievements at the honor roll ceremonies in January. I am looking forward to the third nine week celebration and hoping to see all students who made the second nine weeks honor roll there -- and some new faces, too!

Interims will be going home February 5. Please ask your child to share this very important document with you. This will let you know how well your child is doing through the first half of the third nine weeks.

I’d like to extend a big thank you to all of the parents who have bought tickets and donated items to the fourth annual PFTSTA GALA on March 5 at Southport Hall. We couldn’t accomplish this without all of your help and support. I’m looking forward to a great night, and I’m hoping to see all of you there!

Testing is approaching quickly for our middle school students, who will be taking the LEAP exams in April. The teachers have been working hard to prepare the students for these rigorous assessments. Many students will be taking the EXPLORE and PLAN assessments in March as well. If you have any questions, please don’t hesitate to reach out to any of your child’s teachers.

Senior parents: Believe it or not, it is getting closer to graduation! I’m sure that if you asked your child, he or she could tell you exactly how many days are left until graduation -- probably down to the last second! We hope to see all of you at these big events for the Class of 2016!

Senior brunch with Mrs. Taylor - Sunday, April 24
Senior awards night: Thursday, April 28 at 6:30 at Patrick Taylor
Graduation: Saturday, May 14 – 2 pm (Alario Center)

On behalf of the Patrick Taylor faculty and staff, I wish you all a happy Mardi Gras!
Books, reading, and research have always been at the forefront of the programming in the PFTSTA Library. However, libraries are evolving to meet the needs of 21st century patrons. One way this is happening is through makerspace programs in school and public libraries that offer tweens and teens a chance to be creative, use critical thinking skills, and certainly to have fun. Thanks to seventh grade parent, Sandra Schowalter, the grant from the Patrick F. Taylor Foundation that has outfitted the new Fab Lab has also outfitted the library with equipment and materials with which the students may use to learn, experiment, and enjoy.

The library mini mobile makerspace was started with a Lego station in August that I received through a Donor’s Choose grant. With the additional grant monies, Legos that can be programmed were added to this station. You can visit the library Facebook page to see videos with the students’ constructions that move. Three D pens that allow the user to draw with plastic have been a big hit because the learning curve is quite short, and you get immediate results. The sphero robot has also seen a lot of action, and several students who already have one at home have been mentoring the students new to the robot. Little Bits are electronic building blocks that allow users to create circuits that make sound, light, and movement. Students have been using the Little Bits for play, but the next step is for them to design projects that use these circuits in very creative ways.

Students are welcome to visit the library before school and at lunch to use these new materials. Coming soon to the library will be a 3D printer so that students who do not have a class in the Fab Lab will have a chance to design and print something three dimensional. Of course, several new books to help fuel students’ creativity in the makerspace were purchased for the library for general check out.

Think it, Design it, Make it……

Talented Theater Students Prepare for Spring Show

Scott Theriot

The Talented Theatre program at Patrick Taylor recently held auditions for their upcoming show: GAME OF TIARAS by Don Zolidis. Here is a brief description:

Picture what happens when you place Cinderella, Belle, and the Snow Queen (who in "no way" resembles a copyrighted character) smack in the middle of an English land war! This adapted parody of MANY Disney films, King Lear, and Game of Thrones will leave you dying with laughter!

We would like to congratulate the following students for earning parts in the production:

**Seniors**: Brandon Bui, Jason Hall & Julia Rosato  
**Juniors**: Michaela Brown, Dylan Craigie, Harris Dorado, Raeven Mataya, Michael Modica, Dareana Roy, Matthew Trochez, & Gabrielle Young  
**Sophomores**: Taylor Andras, Patrick Grindstaff, Claire Hudson, & Catherine Wertz  
**Eighth Grade**: Neveah Bonck, Sheridan Kelly, Emily Kraus, Ricki Pierce, & Carlie Rojas  
**Sixth Grade**: Jazzy Conforto

Congratulations to these outstanding performers! Come see them in GAME OF TIARAS!

The show will run **April 21-23rd at Patrick F. Taylor**, Showtimes will be **7:30pm**.
News from the Science Department

Amanda Allison

6th Grade science is off to a great start this year! We recently investigated how to measure, question, and analyze like a scientist! During a volume lab, students were asked to correctly measure and mix different quantities of colored liquids. If done correctly – they would produce a model of a rainbow!

Middle School SGA News

Angela Guthrie

The Middle School Student Government is already going full swing in 2016! All through January they have been preparing with their committees of student volunteers for the annual Krewe of Taylor Mardi Gras float competition! We can’t wait to see what they’ve come up with at the parade on Friday, February 5th. The 6th and 7th grade reps also just did a great job welcoming our foreign exchange students from China at a wonderful assembly on Monday, February 1st. The 6th grade reps taught the new students about spirit monkeys and presented them with their own Patrick Taylor lanyard, ID, and spirit monkeys to start their own collection! The 7th grade reps then taught them about some of our Mardi Gras traditions, most importantly, the colors, beads, king cake, and how to yell “Throw me something, mister!” Every student and adult chaperone was given a pair of purple, green, and gold beads, and one “fancy” bead decorated with king cake babies, and then everyone enjoyed their first taste of some delicious king cake. Finally, the next big event on the middle school horizon is the MORP dance. This semi-formal dance (it’s “prom” spelled backwards!) is generously sponsored by the high school SGA. It will take place at school on Saturday, February 27 at school from 7 til 10 pm. More information to come soon from high school SGA! Watch Paw Prints!
**Athletics and P.E. News**

Danielle White

Students have finished their Fitness Gram testing during class and are enjoying activities such as volleyball, cabbage ball, kickball, etc. Some students have also reached their goal of running one mile without stopping! We will continue with our exciting games, and retest our fitness level in the spring.

Our first Family Fitness Night was held in January. Those that attended had a blast. Thank you to all those students who volunteered, as well as the families and students who took part in this special night. We will hold another Family Fitness Night in the spring. Be on the lookout for a date and time.

In athletics, our winter sports are coming to an end. Basketball, soccer, and track are finishing up their last few games. Gorium Bush qualified for the state meet in the 400 meter run at the LSU Invitational for track. Congratulations and good luck to Gorium! Our spring sport athletes have started their pre-season conditioning. Good luck to all of our athletes in softball, baseball, and track and field. If there is still anyone who is interested in participating in a spring sport (6-12th grade), please see Coach Womack, White, or Banks.

**Web Mastering**

Kelly Maher

The Web Mastering course gives students a brief overview of all of the potential jobs related to web site development, most of which can be roughly classified into either the design or coding category. We began with design, specifically a study of web appropriate graphics and how to optimize graphics for the Internet. This portion of the course culminated in students creating an original digital graphic. Soon, they will have the opportunity to laser cut their graphic onto the object of their choice using our new Epilogue Laser Cutter in the Fab Lab.

Students are currently learning HTML and CSS in order to eventually design and code their own digital portfolios and then work on the school's web site: http://pftsta.com. This year we will be adding a section to the school web site that showcases our fantastic Fab Lab.

If you would like to learn to create web sites, there are a plethora of online tutorials. Some of my favorites are:

- Codecademy HTML & CSS
- Khan Academy: Intro to HTML/CSS: Making webpages
- W3Schools HTML Tutorial and Reference
- W3Schools CSS Tutorial and Reference
- Shay Howe’s, Beginners Guide to HTML & CSS

In addition the W3School’s references above, below are a few web master tools for those of you who already know the basics:

- HTML5 Cheat Sheet
- CSS Cheat Sheet
- HTML5 Please
- W3C Markup Validator
A Note from Maestro McCloskey

Hi Everyone,

We have been having a great time in the Tiger Band. First, I would like to thank the band students who have been coming to rehearsals regularly. Your hard work makes a difference. I would also like to thank the parents who arrange transportation for these after school practices.

We marched in the Krewe of Excalibur parade on January 29, 2016. The band and cheerleaders did a terrific job. Julia Rosato, senior, led the band as Drum Major and Madison Pierce, also a senior, led the cheerleaders.

There is a new program in Jefferson Parish that provides an incentive for bands who participate in parades. The purpose of the program is to raise the quality of participating marching units. Bands are ranked, and the top three receive a monetary award, a trophy, and a banner. I am very proud to say that Patrick F. Taylor came in third place! Way to go, cheerleaders and band. You deserve it.

When we return from Mardi Gras break, we will begin concert season. After school rehearsals will be on Wednesday afternoons (not beginners). Attendance is vital if we are to participate in regional programs like festival. Please try to set aside Wednesday afternoons for band practice.

Finally, District VI Honor Jazz Ensemble will be holding auditions for both high school and junior high school on February 13. This is before we return from break. Those auditioning please see http://district6la.org/honorbands.

Happy Mardi Gras,
John J. McCloskey
The Computer Science Independent Study course provides the opportunity to design a program of study that is more responsive to the academic, personal, and social needs of the individual students than some traditional approaches. This option allows students the freedom to explore, research, develop skills, build, and make, based on their individual needs and interests. With the addition of our new Fab lab, equipment, including multiple 3D printers, an Epilogue laser cutter, Vinyl cutters, Arduinos, Raspberry Pis, and MaKey MaKeys, students are able to make (almost) anything.
January was a busy month for the Taylor Mathletes with three tournaments in New Orleans, Lafayette, and Baton Rouge.

**Brother Martin High School Tournament Participants January 16th:**
Hayley Hughes, Marissa Nguyen, Rayne Torry, Madison Pierce, Tyler Libert, Alexandra Miserendino, Maryann Yacoub, Bailey Andras, Austin McDonnell, Jacob LeBlanc, Ryunn Naquin, Emily Kraus, Nia Evangeloulis, Logan Barrios, Alex Gelpi, Judy Vu, Andre Bourque, Bruce Quach, Shayne Shelton, Ethan LeBlanc

**Winners at Brother Martin Tournament**
1st Place Algebra – Bruce Quach
2nd place Algebra – Alex Gelpi
3rd place Algebra – Logan Barrios
Honorable Mention Algebra – Judy Vu
Honorable Mention Calculus AB – Hayley Hughes
2nd place Math 1 Team (Algebra/Geometry) – Jacob LeBlanc, Austin McDonnell, Bailey Andras, Andre Bourque
3rd place Math 1 Team (Algebra/Geometry) – Ethan LeBlanc, Shayne Shelton, Bruce Quach

**Lafayette High School Tournament Participants January 23rd:**
Andre Bourque, Ethan LeBlanc, Andreas Palmer, Jacob LeBlanc

**Winners at Lafayette Tournament**
1st place Algebra – Andre Bourque
4th place Algebra – Ethan LeBlanc
1st place Geometry – Jacob LeBlanc
1st place Algebra/Geometry Team - Jacob LeBlanc, Ethan LeBlanc, Andre Bourque, Andreas Palmer
1st place Interschool Team Test - Jacob LeBlanc, Ethan LeBlanc, Andre Bourque, Andreas Palmer
1st Place Division 2 Sweepstakes
Baton Rouge Magnet High School
Tournament Participants January 30th:
Ethan LeBlanc, Shayne Shelton, Bruce Quach, Mohammad Abdelwahhab, Andreas Palmer, Ryunn Naquin, Mackenzie Pierce, Carlie Rojas, Jacob LeBlanc, Andre Bourque, Hayley Hughes

Winners at Baton Rouge Tournament
1st place Algebra – Ethan LeBlanc
2nd place Algebra – Bruce Quach
3rd place Algebra – Carlie Rojas
1st place Geometry – Andre Bourque
3rd place Geometry – Jacob LeBlanc
3rd place Algebra/Geometry Team – Ethan LeBlanc, Andre Bourque, Bruce Quach
4th place Potpourri Team – Hayley Hughes & Jacob LeBlanc
3rd Place Division 2 Sweepstakes

MAO and CAM are honor Math clubs for students interested in competing in Louisiana Math tournaments. Interested students should contact Ms. Butler or Ms. Kelley. (kbutler@pftsta.jppss.k12.la.us and kkelley@pftsta.jppss.k12.la.us) Students and parents can see upcoming tournament dates on the LAMAO site. http://www.lamao.org/
Key Club News

The Key Club has been busy this past month:

We just finished a successful service activity for Ochsner Hospital and Children’s Hospital. Key Club collected over a hundred DVDs and VHS tapes for the patients to use while they are in the hospital. This was a terrific undertaking and we are getting positive feedback from patients and staff.

Key Club is raising money for our District Convention. This year the event is being held in Natchez, MS. Everyone is excited and eager to attend. We will be hosting our second annual Family Fun Night. Proceeds will go towards convention expenses. Look forward to a night filled with fun and games; it is now open to other schools, so invite your family and friends. Family Fun Night will also serve as a kick-off to Mission Ignition. We are hoping it will motivate student volunteers to participate. Any volunteers will earn service hours.

Our latest endeavor is a project with Terrytown Elementary School. Key Clubbers from Pat Taylor go to Terrytown Elementary every week after school. We are working with the librarian to organize the library. Currently, we are alphabetizing books, but will soon begin shelving books and working on other miscellaneous tasks. A big thank you goes to Coach Banks, who suggested this project and put us in touch with the school librarian.

Finally, we held our club elections for the 2016-2017 school year. Our officers for next year are … (drum roll please):

Historian: Katalina Nguyen
Treasurer: Judy Vu
Secretary: Lindsey Moffet
Vice President: Jake LeBlanc
President: Tran Nguyen

Thank you to all the officers who served during the 2015-2016 school year.

We look forward to seeing all of you at the Family Fun Night. Until then remember the Key Club International vision: “We are caring and competent servant leaders transforming communities worldwide.”

In the spirit of volunteerism,
John J. McCloskey – Faculty Advisor
Kiara Horton – Club Secretary
National Honor Society News

by Elizabeth Kahn, faculty advisor

Nine students from NHS visited Butler Elementary in January to perform an experiment thanks to member Ariel Walker. Ariel completed the STAR program at Ochsner this summer, and one of the outcomes was for her to lead STEM activities including several experiments at a local elementary school. This was the group’s third visit to Butler, but the first one with an experiment. The focus was on water and the water cycle. Mason Varuso, Madison Pierce, and Ariel Walker served as great teachers who not only explained the water cycle but asked the students some great questions to spur discussion. This community outreach activity has been so beneficial to the NHS members and the fourth graders that we hope to continue the collaboration next year when Ariel graduates.

- Jack Henderson
- Gabrielle Horne
- Julia Hutto
- Aalaila Jenkins
- Devin Johnson
- Jacob King
- Janee Kovacs
- Hermione Lam
- Cayden Landrum
- Sarah Le
- Davion Lemon
- Trine Lewis
- Ava Lincoln
- Jennie Longwell
- Nina Luong
- Myles Mackie
- Laurie Martinez
- Nathen Moody
- Tyler Nesbitt
- Alex Nguyen
- Kelly Parker
- Austin Pellegrin
- Caleb Prestenbach
- Quentin Quarles
- Austin-Jaymes Reeme
- Maximus Reese
- Joy Rheams
- Bashar Rimawi
- Nathalie Romero
- Edwin Salinas
- Omar Sarmini
- Joseph Schexneyder
- Emily Schmidt

8th Grade
- David Abadie
- Mohammed Abdelwahhab
- Evan Bardwell
- Charles Bass
- Hope Bass
- Nikolas Birkhoff
- Blake Bonnette
- Andre Bourque
- Nadiya Clarke
- Nile Doucette
- Caleb Duhon
- Kya Dykes
- Kaitlyn Esneault
- Connor Folse
- Emma Gattuso
- Joshua Gibson
- Ella Grindstaff
- Salma Heram
- Isabella Hernandez
- Sadie Jensen
- Sheridan Kelly
- Olivia Laizer
- Julie Ledet
- Victoria Mordica
- William Musgrove
- Ana Nacieneceno
- Ryunn Naquin
- Naija Nelson
- Thuan Nguyen
- Kristian Noullet
- Logan Palazzo
- Andreas Palmer
- Mackenzie Pierce
- Ricki Pierce
- Suyong Pokharel
- Bruce Quach
- Ben Richard
- Chance Rodriguez
- Emma Rogers
- Carlie Rojas
- Sarah Short
- Blenda Son
- Olivia Sonnier
- Rachel Wallace
- Ibrahim Wehbe
